

POSITION:

Web Developer, Consumer Direct

Subject: Web Developer open position

Dear Alli Burton (or Hiring Manager),

I am currently finishing a bootcamp at University of Washington where I am pursuing certification for Full-Stack Web Development. I found the Web Developer, Consumer Direct position posted while searching on the career pages of Burton.com. I am very excited to implement my skills into a business I have so much passion for. I currently have experience working with the following languages: HTML, CSS, JavaScript, jQuery, MySQL, MongoDB, Node.js, Express. I also have several years of experience working with Salesforce and other CRM Platforms.

In addition to my Web Development background, I have a strong history working in B2B and B2C Sales, Management and Marketing roles. This experience gives me an insight to business owners and clients wants, as well as being able to effectively communicate throughout projects and make strict deadlines.

I hope you enjoy the interactive site I put together to view my cover letter and resume. For a company that is a big part in my personal life, I felt it was necessary to add some flair. I am looking forward to speaking with you soon.

Sincerely,
DeAnna Boiani
